**CTS 4110 Cassette Toilet with China Bowl**

Cassette toilet with ceramic inlay and integrated flush water tank CTS 4110 is a cassette toilet with a easy to clean slightly scratch resistant toilet bowl, a ceramic inlay on a plastic block, which has a weight-reducing effect and also a extreme rigidity compared to other rotatable toilets guaranteed. The pace-saving seat has 8 cm less width than any other similar brand. Gives you more room. Seat can also be adjusted by up to 90° in both directions – fits into any confined space. CTS 4110 has an optimised vacuum breaker and anatomically optimised bowl design with 15 % more flushing power.

Measurements (H x W x D) (mm) 672 x 382 x 530 Net weight (kg) 12 Voltage (V) 12v

CTS 41140 - 8663

**THETFORD**

Bellows - 8730

The SOG Toilet Ventilation System is an ecological solution for motorhome and caravan toilets. It is 100% chemical free and 100% odourless.

This system is available for all popular 12V Thetford and Dometic cassette toilets, as well as for permanent black water tanks. Choose from standard side, roof or floor venting models, all designed to match your existing cassette toilet.

Made with the traditional German engineering and know-how, this solution to a smelly problem will be an investment in quality of lifestyle.

Additives are no longer necessary and optimal decomposition is guaranteed by the increased flow of oxygen

The fast and powerful ventilator immediately removes odours by suction

No more smells in the vehicle

No further problems with the pressure of gases caused by decomposition

The power consumption is very low at 0.43 watts.
