RV Awning Cover Kit - 4 Piece

Protect your awning fabric from the damaging effects of the sun and weather. Will accommodate all late model RV awnings including electric, as long as the diameter of the rolled up awning, including fabric is between 9.2cm and 10.7cm. Each Awning Cover piece is 10.9cm long. Extends the life of your awning fabric indefinitely.

16-20ft - 11300
20-24ft - 11302

AWNINGS

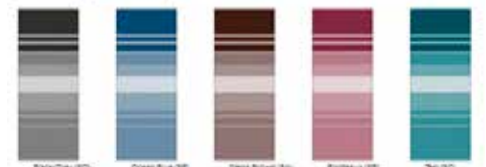

FIESTA ROLL OUT AWNINGS

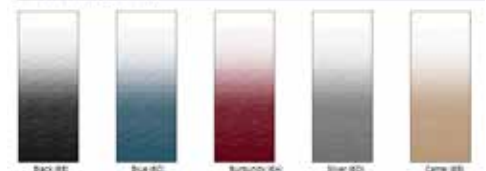

- Two piece durable fabric construction ensures your awning is protected from the Harsh sun and tree scuffs when in the rolled up position.
- The Weatherguard is constructed of a tough 18oz vinyl with a super-strong, 1000 denier inner layer which is virtually impossible to tear.
- A double size 15oz vinyl fabric in vibrant colours completes the two piece construction and it will enhance the appearance of your RV.

Acute Black - 11465

Aussie Traveller Anti-Flap Kits

Aussie Traveller has designed the Anti Flap Kit to help overcome two of the major problems faced by owners of all brands of roll out awnings.

It helps to reduce wind flap

It has the ability to successfully add walls

The AFK breaks down to four individual sections (two pieces per end) which, when joined together, form a full length clamp. This full length clamp fixes to the awning fabric's outside edge, and helps prevent wind flap and includes a rope track to accept walls.

Aussie Traveller has made adding walls to all brands of roll out awnings quick and easy. Adding walls to give a waterproof seal is as simple as sliding the walls through the built in rope tracks on the inside of the AFK (AntiFlap Kit).

Short White 2100mm - 2200mm - 11445

Short Black 2100mm - 2200mm - 11445B
